THYRO MANIA G

For Dogs & Cats

Supports in Hyperthyroidism Relief For Cats & Dogs

As pets start to get older they become much more susceptible to specific diseases common to their species. For our middle aged and older cats and dogs, the most common disease they can face is hyperthyroidism. It results when the thyroid gland becomes enlarged and starts overproducing thyroid hormones. This imbalance of hormones circulates through the bloodstream and causes a host of problems for your poor aging pet.

Since thyroid hormone affects most of the body's organs, hyper thyroid can lead to secondary problems and display a wide variety of symptoms:

- Weight loss
- Poor coat quality
- Increased appetite
- Increased water intake
- Increased urine output
- Occasional vomiting or diarrhea
- Hyperactivity, irritability, increased yowling (mournful cry)

Indications: Useful in Hyperthyroidism and swelling of gland ,Metabolic support for normal weight, appetite and thirst, for a regular smooth coat, supports heart function, helps in normal sleep patterns

Dosage:

Cats: For 7kg b.wt. or above 5-7 drops twice a day

Dogs:

Small breeds: Up to 15 kg b.wt. 0.5ml twice a day
Large breeds: 16-25 kg b.wt. 1ml twice a day
26-50kg b.wt. 1.5-2ml twice a day
Above 50 kg b.wt. 2.5ml twice a day
or as directed by the Veterinarian.

ADINATEK DROP 100ML

For Dogs & Cats

NATURAL ADRENAL SUPPORT FOR CATS & DOGS

ADINATEK is useful in the common symptoms of Cushing's disease in dogs and cats. It relieves the symptoms of adrenal gland imbalance. Cushing's disease results from an excess of adrenal gland hormones including cortisol. It is a common side-effect of drugs such as corticosteroids, which are often prescribed to treat canine arthritis, allergies and other ailments. Cushing's disease can also result from a benign tumour on one of the adrenal glands or the pituitary gland. Symptoms of Cushing's disease include:

·Increased thirst and appetite
·Frequent urination
·Loss of hair
·Skin problems
·Panting
·High blood pressure
·Increased susceptibility to infections

If left untreated, Cushing's disease can lead to other conditions like diabetes and heart problems ADINATEK Drops

·Supports cortisol balance
·Promotes normal thirst and urination
·Healthy skin and coat, normal hair growth
·Supports healthy weight, normal appetite, proper muscle tone.

Dosage:

Cats & Dogs under	10kg b.wt.: 2 drops
Dogs	11kg b.wt.- 25kg b.wt.: 3 drops

Mix recommended dose with food or administer orally 3-5 times a day or as recommended by a veterinarian

EVENING PRIMEROSE OIL SHAMPOO

For Dogs & Cats

Gentle and effective

Infused with Lavender, Essential oils and Vitamin-E acetateThese thick concentrated shampoos typically offer a therapeutic dosage of evening primrose oil to nourish your pet's skin as well as create a soft coat and ease the discomfort of swelling and redness from a dry, itchy condition.

This is an ideal formulation for cats and small dogs to reduce scruffiness or dryness and help maintain healthy skin and coat condition. Evening Primrose oil is believed to restore the balance in reproductive hormones that can otherwise influence behavior and coat quality.

HOW TO USE: Gently massage shampoo into the coat until you get a soft leather, taking care to avoid the eyes. For best results, Leave in for 10 minutes and rinse thoroughly. Brush, comb or blow dry repeat weekly.
